

Early Childhood Nap Assistant Position

The Denver Waldorf School (DWS) is looking for an Early Childhood Nap Assistant, beginning August 2017. The ideal candidate for this position will have a strong love of working with children ages three-and-a-half to six, an interest in Waldorf education, and the ability to work well in a collegial setting. As our Early Childhood program is often a parent's first introduction to Waldorf education, the ability to communicate clearly and regularly with parents is an essential skill for this position. Nap assistants are also required to participate in CPR and First Aid training offered at the school.

This position includes supervision of the children on the playground, cleaning up the room, and supporting the Lead Teacher and Lead Assistant at lunchtime and during and after nap. Responsibilities of the nap assistant also include interacting closely with the group of children, nurturing and tending the domestic and artistic life of the classroom, sharing in the care of the greater classroom environment, and supporting and providing an atmosphere of security, warmth, and joy. Beginning at 3:15 the Nap Assistant will work in the aftercare program with a mixed age group.

The hours are from 11:00 a.m. – 4:30/4:45 p.m.

The base salary is \$14.00/hour. Opportunities for ongoing professional development are strongly supported.
